Cyber Operation Research Analyst III

Job ID: 10/2019-013

Job Location: Fort Gordon Ga

Job Category: Analyst

Date Posted: 24 October 2019

Job Available: 2 February 2020. This Job position will relocate from Fort Belvoir Va to Fort Gordon Ga.
Candidate must be willing to work at Fort Gordon Georgia

Athena Technology Group, Inc. is a Service-Disabled Veteran Owned Small Business (SDVOSB) focused on Information Technology and Communications consulting, system engineering, integration, deployment and operation of state-of-the-art command and control and information systems that deliver critical network centric solutions to the warfighter. With a proven track record of technical support to our customers, we are looking for innovative industry professionals to join our team.

JOB DESCRIPTION:

Provide operations research analysis support for intelligence, cyberspace operations, contingency operations, and operational-level planning, joint and multilateral training exercises, and strategic engagement policy

Analyzes actual and predictable, interacting, operational activities of systems to obtain a quantitative, rational basis for decision-making through the application of logic and scientific or economic disciplines and techniques

Devises modeling and measuring techniques to investigate complex issues and solve problems

Assists in addressing requirements and the evaluation of data assessment strategies: sampling, statistical analysis, evaluation, flow processing, and management assessment strategies

Develops cost-benefit analysis, data collection, data analysis, risk analysis, simulation model execution, economic analysis, and operational effectiveness studies. Mentors mid-level and junior staff

Uses ArcSight or similar systems such as Splunk to provide big data security analytics and intelligence software for security information and event management (SIEM) and log management

REQUIRED EXPERIENCE:

Experienced with model development and testing as well as gathering, relating, and identifying data with variables in models

Has developed reports noting various alternatives and success probability when there is no single solution

Possesses an in-depth understanding of cyberspace doctrine, policies, operations, and organizations

Background includes quantitative experience and/or education (e.g., mathematics, statistics, etc.).

Edu/Exp: HS 16+ Years, BA/BA 10+ Years, or MA/MS 8+ Years

Required Certification: DOD 8570.01 IAT Level II and CSSP Analyst

US Citizenship and an active DoD TOP SECRET/SCI w/CI Poly Clearance and requires a MADDO packet are required for the position.
