Job Category: Engineer

Date Posted: 24 October 2019

Job Available: 2 February 2020. This Job position will relocate from Fort Belvoir Va to Fort Gordon Ga.  
Candidate must be willing to work at Fort Gordon Georgia

Athena Technology Group, Inc. is a Service-Disabled Veteran Owned Small Business (SDVOSB) focused on Information Technology and Communications consulting, system engineering, integration, deployment and operation of state-of-the-art command and control and information systems that deliver critical network centric solutions to the warfighter. With a proven track record of technical support to our customers, we are looking for innovative industry professionals to join our team.

### **JOB DESCRIPTION:**

The Information Assurance Engineer III will provide technical and programmatic IA support for network and information security systems. Daily duties will include:

Design, develop and implement security requirements.

Prepare documentation from information obtained using accepted guidelines (e.g., DITSCAP, RMF, etc.).

Prepare Security Test and Evaluation plans and provides C&A support.

Analyze policies and procedures against established laws and regulations and provide recommendations for closing gaps.

Develop and complete system security and contingency plans.

Develop, test, and integrate security tools.

Conduct security program audits and develop solutions to lessen identified risks.

Evaluate, develop, and enhance security requirements, policy and tools.

Perform vulnerability assessments including development of risk mitigation strategies.

Mentor mid-level and junior staff.

### **REQUIRED EXPERIENCE:**

HS with 16 or more years, BA/BA with 10 or more years, or MA/MS with 8 or more years of experience.

Certs: DoD 8570 IAT Level II.

Expertise with designing, developing, implementing, and enforcing security requirements.

Developing security plans and contingency plans.

Familiar with developing, testing, and integrating security tools as well as configuring and installing the tools.

Skilled in conducting security audits and developing mitigations to identified risks.

Has conducted vulnerability assessments.
