

EUCOM Configuration Manager

Req #: 11/2016-026

Location: International, DE - Stuttgart, Germany

Job Category: Information Technology

Minimum Clearance: Secret

Job Description

Athena Technology Group (ATG) is looking for experienced, innovative and motivated IT Specialists to support enablement of EUCOM's mission objectives.

This position is in support of a Department of Defense (DoD) organization, US EUCOM located OCONUS in Stuttgart, Germany. *This position is required to travel OCONUS.*

Configuration Managers are responsible for configuration management (CM) of both developmental and operational systems. Establishes and maintains the consistency of information regarding the design requirements, functional and physical attributes, and operational information of enterprise configuration items (CIs). Works with developmental and operational teams to create and maintain multiple, disparate configuration baselines (e.g., development, test, production) for their systems. Configuration Managers recommend and utilize automated CM tools to implement CM policies and procedures. Develop and modify CM plans, policies, and procedures and tailor them to the complexity and scope of each developmental or operational system. Exercise CM discipline for the entire life cycle of systems, from the initial definition of requirements and capabilities of system baselines through the end-of-life of each system. This includes the periodic performance of configuration audits. May provide work direction and guidance to others. Other duties as assigned.

Develop the configuration management plan, processes, and procedures to manage the supported networks and systems. Work with technical personnel to gather data to populate and maintain the Configuration Management Database (CMDB). Work with and coordinate closely with the asset management team. Provide configuration management planning.

Define provisions for configuration identification, change control, configuration status accounting, and configuration audits. Regulate the change process so that only approved and validated changes are incorporated into CIs.

Additionally, the Configuration Manager will provide remote support and/or travel to customer sites as required.

Required Qualifications:

- Currently hold an adjudicated Secret Clearance and be able to maintain
- BA/BS + 5 years recent specialized or AA/AS +7 years recent specialized or a major cert + 9 years recent specialized or 11 years of recent specialized experience
